- Seasoned Blockchain Communicator (Bitcoin.com, Solana Foundation)

Magnus Strand

CTO | Software Operations

- AI, blockchain, and smart contract programmer
- UI/UX & Web App developer
- Early Bitcoin adopter and blockchain evangelist

WHAT WE DO

Toolbase helps growth-stage businesses scale intelligently with AI.

HOW WE DO IT

- **AI-Powered Virtual Agents:**

Chat: Highly-engaging virtual agents provide premium customer experiences from first contact throughout the entire customer journey.

Voice: The only farang you'll ever hire. From lead generation to customer support, our multilingual voice agent is your 24/7 concierge for inbound inquiries.

- **Toolbase Intelligent CRM:**

AI-powered business management software that keeps every aspect of your business streamlined and in sync.

- **Web App Development & Hosting:**

Deliver a premium web experience with an AI-powered, interactive website. Engage international clients and showcase your brand's unique value with a unified web presence.

- **Inbound Lead Generation Agent**

Answer advanced inquiries, provide realtime listing information, and qualify leads 24/7.

- **Inbound HR & Recruitment Agent**

Engage applicants, filter inquiries, and automate interview scheduling for every employment inquiry.

- **Custom LINE API Development**

Deploy both agents to LINE with a custom API integration.

Build Fee: \$7,500

Monthly fee: \$750/mo
